ELECTROLYTES

SEE CHART	Available in quart bottles and 12 quart cases. Refer to the ELECTROLYTE CHART on front page for recommended formulas.
------------------	---

CLEANERS

APC	CLEANER (Light amber color) All Purpose Cleaner
NO90	CONCENTRATED CLEANER (Milky white color) has a light oil base that leaves a protective film on part. Recommended when cleaning corrosive metals.
CP0	PROTECTIVE OIL, necessary for use on parts that require protection from normal atmospheric conditions. For use after parts have been marked, cleaned and dried.
WSP	Same use as CP0 except water based.

PHOTO-PROCESSED STENCILS

DF STENCIL	LONG LIFE NYLON PHOTO-PROCESSED STENCIL for custom logos, serial numbers, trademarks, inspection designs, date codes, curved or complex configurations, very large or extremely small characters.
