

# Now...Generate Your Own **Electro-Chemical Marking Stencils** In-House!

## **StencilMark™** **Imprinter System**

Ask us about a **turn-key system** designed to meet your specific needs!

Marking Methods can provide a turn-key system, pre-printed stencils or contract marking to directly mark on your parts at our facility.

Since 1954, Marking Methods has specialized in providing quality electro-chemical marking equipment. Let us earn your business—send us the parts you want marked, and we will sample mark them for you **FREE** and provide you a quick, no-obligation estimate. Or call (626) 282-8823 to discuss applications in detail.

The **StencilMark™ Imprinter System** impresses die-impression stencil with logos, serial numbers, date codes, nameplates, 1D and 2D codes.

**StencilMark™** software input screens are designed for the non-computer user, yet incorporates robust features and functions. This allows shop floor personnel to easily generate stencils for most applications.
